

Job Title: Senior Tableau Developer
Location: Dunwoody, GA
Job Type: Full-time
Work Authorization: United States (required)
Education: Bachelor's (required)
Tableau Experience: 2 years minimum (required)

Company Description

Optimized Payments is an Atlanta based analytics and consulting firm helping merchants simplify and reduce the cost of card payments. We are a small, 12-year old, fast growing company looking for talented individuals who want to grow with us. Our client portfolio includes Fortune 500 firms such as Staples, Safeway, Priceline, AutoNation and the U.S. Postal Service.

Job Description:

As a Senior Tableau Developer, you will drive BI, visualization and predictive analytics to the next level. This entails understanding customer requirements, compiling available data, and exposing the data in both an intuitive and visual way to end users. The ideal candidate will standardize dashboards across clients while adding client-specific customizations, as needed. This candidate will add storytelling and communicate both key metrics and actionable insights in an intuitive fashion. Success in this role will mean the overall team's impact is increased (more stories, quicker turn-around of results, improved data-driven visualizations, and set of standardized dashboards across clients). We are looking for an energetic professional who is passionate about making a difference and has the technical skills outlined below.

Skills & Qualifications:

- Extensive use and expertise in Tableau desktop
- Should have advanced Tableau visualization development skills (certification a plus)
- Ability to understand, translate, and map business questions into analysis projects
- Understanding of database technology; Ability to write SQL queries
- Alteryx experience a big plus
- Excellent project management, planning and organizational skills; Ability to multi-task in order to move forward in highly dynamic situations
- 2+ years relevant advanced analytics experience
- BS degree in quantitative field (Economics, Statistics, Mathematics, Computer Science, Data Analytics, Business Intelligence, etc.)
- The ideal candidate should be self-directed, passionate about data, and focused on delivering the right results
- Experience in credit card payment processing or financial analysis roles are a plus, but not required

Why Consider Optimized Payments?

- Growing and highly profitable 12-year old payments analytics and consulting firm
- Work with people who share a commitment to serving customers and having fun
- Opportunity to make significant impact to Company, Clients and your career
- Benefits – standard 3-week vacation, stock options, 401k plan, medical benefits, full gym, paid parking
- Opportunity to work remotely 1 or 2 times per week
