

**Job Title:** .Net/SQL Developer  
**Location:** Dunwoody, GA  
**Job Type:** Full-time

### **Company Description**

Optimized Payments is an Atlanta based analytics and consulting firm helping companies streamline their payment operations. We are a growing, 15-year-old company looking for talented individuals who want to grow with us. Our client portfolio includes Fortune 500 firms such as Apple, Staples, Safeway, Priceline, AutoNation, and the U.S. Postal Service.

### **Job Description**

- Provide technical expertise and application development/support for day-to-day deliverables.
- Assist in the technical design of internal applications, interfaces between applications and internal admin website.
- Research technologies independently to recommend appropriate solutions.
- Use best practices & standards from design through deployment, including reliability, cost-effectiveness, performance, re-usability, maintainability, and scalability in an Agile environment.
- Define requirements and individually scope projects given user scenarios and objectives. Self-organization and incremental design are key as the project changes.
- Implement custom application design including consideration of time boxing and constraints.
- Develop applications with a lean mindset. Focusing more on the why than the how.
- Demonstrate modern coding techniques that fit with accepted standards appropriate for the technology our organization is utilizing.
- Package and publish applications to deploy in real world scenarios
- Commit early and often your pieces of code to the repository. Maintain healthy organized habits regarding the code that is committed to the repository.
- Update tasks in the project management and organization software. Keeping an active project up to date is critical.
- Foster an active feedback loop with sponsors and product managers.
- Maintain code that continues to meet the robustness required to comply with modern security standards and practices such as OWASP, PCI, etc.
- Continue to maintain and validate current the code base. Fixing bugs and improving applications as they are used in production environments.
- Strive for satisfaction from the prospective customer.
- Follow up with bug fixes and requests with appropriate sponsors after testing. Ensure the requirements are met and no further defects exist.
- Other duties as assigned.

### **Skills and Qualifications:**

- Independent, self-motivator, intelligent, entrepreneurial
- Ability to work in team in diverse/multiple stakeholder environment.
- Bachelor's degree or foreign equivalent from an accredited institution or equivalent work experience.

- Well versed in .Net C# - 3 years-experience in .Net technologies, ASP, .NET, ADO.NET, MVC framework preferred.
- Experience with SQL or other relational Database
- Experience with SQL server a plus
- Python experience a plus.
- Azure ADF and Snowflake experience a plus
- Payments industry, Fintech or Banking experience a plus
- 3 years-experience in software development life cycle a plus.
- Experience and desire to work in a Global delivery environment a plus.

**Why Consider Optimized Payments?**

- Growing and highly profitable 15-year-old payments analytics and consulting firm
- Work with people who share a commitment to serving customers and having fun
- Opportunity to make significant impact to Company, Clients, and your career
- Benefits – standard 3-week vacation, stock options, 401k plan, medical/dental benefits, full gym at office, paid parking
- Opportunity to work remotely 1 to 3 times per week
