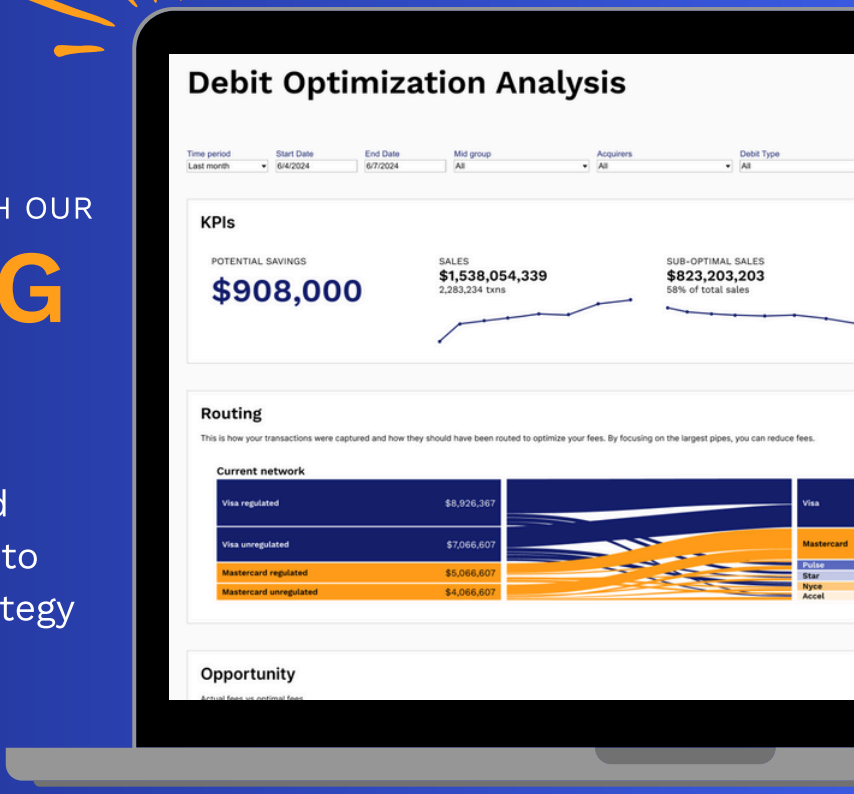
OPTIMIZED PAYMENTS

MAXIMIZE YOUR BOTTOM-LINE SAVINGS WITH OUR

DEBIT ROUTING DASHBOARD

Our proprietary Debit Routing Dashboard provides you with the insights you need to plan and monitor your debit routing strategy to generate optimal savings for your business.



Stop issuers and networks from taking more than their fair share of your revenue.

Our Debit Routing Dashboard allows you to

PLAN

Access, visualize, and analyze **millions of records** in seconds to create a compelling business case for optimizing your debit routing strategies.

PRIORITIZE

Identify and prioritize the most impactful changes based on transaction data, routing options, and potential cost savings.

MONITOR

Continuously track the impact of your debit routing changes to evaluate its effectiveness and optimize further as needed.

Get a comprehensive view into:

Actual vs Predicted Savings
Compare your actual savings with predicted figures to assess the impact of your debit routing changes.

Sales & Non-Optimized Sales
Gain insights into your total sales, distinguishing between transactions that have been optimized and those that haven't.

Current Network Details
View detailed information about the networks currently handling your transactions, including performance metrics and associated costs.

Potential Effective Savings
Identify the savings you could achieve by optimizing your debit routing.

Map of Current & Optimal Networks
Visualize your current network usage alongside the optimal routing configuration to easily identify and implement the most cost-effective solutions.
